Python, C++, Java, C

## EDUCATION

---

### University of California, San Diego, Bachelor's of Science

- **Electrical Engineering B.S.** (Oct. 2020 - June 2024)
  - Depth in **Machine Learning and Controls**
  - **Minor in Mathematics**
- **Relevant Coursework:** CSE11/ECE15 (Accelerated Java and C), ECE17 (OOP w/ C++), ECE16 (Rapid Python Design), ECE30 (Computer Organization), ECE109 (Probability Theory), MATH20A-D (Calculus 1-4), ECE25 (Digital Electronics), ECE35/45 (Circuit Analysis)

### University of California, San Diego Extension, Certifications

- **Android Programming Certification** (Sep. 2021 - June 2022)
- **Front-End Web Development Certification** (Jan. 2020 - Sep. 2020)
- **iOS Programming Certification** (Jan. 2019 - May 2019)

## WORK EXPERIENCE

---

### Software Engineer Intern, Project YELLOW

Oct. 2021 – Present

- Developing exclusive social platform where people are only able to add people that they meet in real life by **scanning an NFC chip**. I decided to join this startup for the opportunity to work with NFC chips and mobile app dev. I've also created their new site with **HTML, CSS, JS**.
  - Developing cross-platform app with **Java, React-Native, and Firebase**.

### Undergraduate Researcher, UCSD DigiHealth Lab

April 2021 – Present

- DigiHealth is a joint research laboratory of UCSD Design Lab and the Jacobs School of Engineering ECE department.
- Working under the guidance of Dr. Edward Wang and his Ph.D. students to develop a **deep learning model** with **MobileNetV2** and for pupil locating and measuring.
  - Have written **C++** code for **I2C communication**, **designed circuits** on Eagle, and **soldered** them.

### Researcher, Young Engineer Experience, SDSU Experimental Mechanics Lab

June 2019 – July 2019

- Under the guidance of Dr. George Youssef, I **researched** the tensile strength of 3D printed ABS ASTM D638 samples versus ASTM D638 samples created with injection molding.

### Mathematics Instructor, Mathnasium

May 2021 – Present

- I instruct K-12 students in mathematics.

## PROJECTS

---

### AI Yusuf Discord Bot with Python (PyTorch)

Nov. 2021 – Present

- Used **PyTorch** to interpret transcripts of conversations and build a chatbot using them. The chatbot will input and output messages to Discord.
- With **Python**, I created a separate Discord bot that sorts through conversations in a server that I'm active in and generates transcripts.
- ML code has been created. The project is currently in the data collection phase. When complete, the AI Discord bot will be deployed.

### Drowsiness Detection with Python (OpenCV), Arduino, LaTeX

Feb. 2021 – March 2021

- In this project, a colleague and I programmed software that detects when the user becomes drowsy and starts to close their eyes before alerting them with a buzzing noise until they open their eyes again.
  - My work includes writing **Python** code that detects eye movement, and writing/editing a report on the project using **LaTeX**.

### HC-SR04 Ultrasonic Security Sensor with MATLAB, Arduino, Eagle, Fritzing

Nov. 2020 – Dec. 2020

- Two other ECE students and I used MATLAB, an Arduino MEGA, LEDs, a buzzer, an IR remote and receiver, and a DHT11 temperature sensor to create a security device. This device not only detects movement, but also determines whether it's caused by a living being.
  - I worked on **Arduino/C++** code, the **Eagle** file, and created the **Fritzing** file for this project.

## LEADERSHIP / AWARDS

---

- **CS Foreach Early Start Mentor** (2021 – Present)
  - Working with other UCSD students to teach a high school student how to create a website with **HTML, CSS, and JS**.
- **UCSD ECE Undergrad Student Council Mentor** (2021 – Present)
  - I meet weekly with first-year ECE students at UCSD to advise them and answer their questions about ECE, classes, and more.
- **AP Scholar, College Board**, July 2020
- **Student of Distinction / Student Spotlight, UCSD Extension**, July 2020
  - After scoring at the top of my class in my UCSD Extension certification, an [article](#) was written about me.
- **President of high school's Architecture, Construction, and Engineering Club** in senior year (Member: 2016 – 2020)
- **Scholarship for Electrical Engineering, ACE Mentor Program**, May 2020
- **Scholarship for Electrical Engineering, ACE Mentor Program**, May 2019

## MORE INFORMATION

---

- Fluent in both English and Arabic
- Holds **MATLAB OnRamp** and **Project Management** certifications
- Experience in **machine learning, web and app development**, LTspice, Eagle, Vivado, Fritzing, Multisim
